PART 7

To finish your blanket we will join your motifs made in part 6 and then continue to work in the round for your edging.

Joining your motifs together to make a frame

Using G, join the motifs together by working 1sc in each of the 15sts, work through 1 st on one motif & through 1 st on your second motif on reverse of work at the same time. Use the layout image to help you to create a frame which you will later join to the main blanket.

To begin to layout your motifs, place your corner motifs first and then your centre of each row motif (these will be in the same color-way). This will help you to correctly place the rest of your motifs.

Joining your motifs
